## When was the last time your accountant asked what you wanted to do rather than told you what you couldn't?

Trustee Services

# Guiding you to a secure future

## Are you aware of your responsibilities towards your employees' pensions and what will happen if you can't meet them?

We live in a world where a lack of preparedness for retirement is occupying the government to such an extent that pension legislation seems to be ever-changing. Greater responsibility than ever before is being placed on the employer to encourage their employees to save for retirement, and, within the next ten years there will be twice as many retired baby boomers in the economy as there are today. Web.ts can help.

Perhaps your staff pension scheme has become the topic that everyone knows about but that no-one wants to talk

about. Perhaps you can no longer afford to support the level of contribution your scheme demands. Maybe you're thinking of buying a business that offers different levels of benefit to your own, or you're an appointed trustee of a scheme who needs good advice on the demands and requirements of your role.

With over thirty years of experience in the world of corporate pensions, the consultants at Web.ts are able to help you move from old cumbersome schemes to tailored solutions that better serve your current and future requirements.

We can review and align differing plans or prepare your scheme as part of a company sale. If trusteeship is an unnecessary burden we can fulfil this role for you too. Our team's considered advice can provide the certainty and peace of mind necessary to guide you through the minefield of information and legislation to make the right choices.
